WORK EXPERIENCE:

AZ Shipping Company, Warehouse Associate, Dupont, WA

Mar. 2013 – Present

- Outperformed productivity metrics in safety, quality and productivity, accuracy under 50 parts per million; at 150%+ expected performance standards
- Supervised giftwrap department during holiday seasons, training and motivating 10 to 15 employees.
- Met daily service-level goals, achieving 100% customer timing output for over 97% of shipments
- Mentored 5 to 8 new employees weekly and conducted new hire "warehouse-environment training" according to company guidelines and expectations
- Initiated original idea and coordinated relocation of prep department, integrating with receiving process; implementation reduced backlog by 50%, productivity rates improved by nearly 15%
- Coordinated original activity committee to offer employee recognition and company celebrations

WA Dept. of Transportation, Transportation Planning Technician I, Olympia, WA

June – Sept. 2019

Salt Shed and Deicer Tank Inspections Statewide: Maintenance and Operations

- Evaluated over 135 DOT satellite salt shed and deicer tank sites for environmental compliance and physical condition using Highway Activity Tracking System (HATS) via a mobile unit

- Enhanced existing site data by geo-mapping exact locations of structures, obtaining geotagged photos of distant property, multiple views, internal rafters, obtained photos for 12 sites that were previously undocumented
- Collected sample materials of soils and pond water from roadside locations via standard collection protocol according to statewide supplemental data for locations nearing specified tolerances
- Operated state vehicle for extensive travel throughout Washington, including basic maintenance

Asset Management Inventory for Roadside Safety: Safety, Design and Innovations Group

- Identified and mapped guardrail end terminals/impact attenuators from HATS data and maintenance records into database of nearly 40,000 records for science-based analysis of design, utilizing SRView3
- Located over 35 previously unidentified guardrail structures for a more complete inventory
- Designed color manual for accurate terminal classification for all past and current roadside features including relevant training manuals and construction field guides as additional reference

CERTIFICATIONS AND TRAINING:

- Completed WSU Forestry Coached Planning for Small Timber Owners creating a management plan, Spring 2019
- Exceptional safety record operating vehicles, working in fast-paced warehousing and construction environments driving over 6,000 miles in 4 weeks
- AZ Shipping Company Innovations Team member at test site in Sumner, WA, 2013
- AZ Safety Employee of the Month, Dec. 2018
- WSDOT First Aid Certified, June 2019

COMMUNITY INVOLVEMENT:

- **Administrator, TrigStar High School Trigonometry Competition:** Oversaw program within Thurston and Lewis counties for 10 years, increasing participation, awarding prizes, and managing a \$2,000 annual budget
